The Leader Board

If you have more than five topics scoring 15 or higher, list them all here on the left. Now it's time to consider which 5 resonate above all others. Compare each one and choose the topics you couldn't live a happy life without for the column on the right.

If you have less than five topics that score 15 or higher, begin listing your topics scoring 13 or higher, then 11 or higher, then 9 or higher until you have at least five topics listed. Place the highest scorers on the right column and compare the lower scorers on the left for the remaining spots on the right.
